

Cerner Electronic Health Record (EHR / Clover)

Core Competencies for Nurses and Midwives

All Caring for You nursing members wishing to accept shifts at Peninsula Health, must complete the EHR training for the hospital's Medical Records and Administration of Medications System.

Please download the handbook from the link below. (This is also available in your Qintil account under Recommended Courses).

[Click here to download EHR Handbook](#)

Please read through the handbook and watch the video demonstration links on each page. When you have completed all the Training Modules, please sign the Declaration Certificate on the final page and email to compliance@carinyou.net.au

Once we receive your signed certificate, we can then order your logins to use on shift. The new user logins will take between 5-15 business days and will be emailed to you.

Should you have any questions, please contact the Compliance Team on **1300 369 206**.

Thank you,

C4U Team.
